Report on CSSTEAP Short Course on Satellite Remote Sensing Data Acquisition & Processing

NRSC organized a CSSTEAP Short Course on Satellite Remote Sensing Data Acquisition & Processing from November 18 - November 29, 2024 at Knowledge Resource Area, IMGEOs facility Earth Station, Shadnagar.

There were 2 Indians and 19 foreign officials representing countries Kazakhstan (2), Kyrgyzstan (2), Myanmar (1), Sri Lanka (2), Bangladesh (1), Nepal (2), Viet Nam (3), Uzbekistan (1), Myanmar (1) and Indonesia (4) attending this Course.

An inaugural session was organized on November 18, 2024. Shri. P Srinivasulu, Associate Director NRSC delivered the inaugural address and welcomed the participants.

The SRSDAP short course had total 36 lectures in the forenoon (09:30 hrs to 13:00 hrs) and 15 lab in the afternoon (14:00 hrs -17:00 hrs) session. The first week i.e Nov 18-22 , 2024 lectures encompassing basics on remote sensing data capturing systems that include Antenna, RF feed, and other ground receive hardware and software sub-systems with one Industry visit on Nov 21, 2024 to INCOIS was covered.

An Industry visit to AMP and INCOIS was organized on November 21, 2024.

The NRSC CSSTEAP Programme Office organized educational tours to historic destinations in and around Hyderabad on November 23-24, 2024 and a tour. Also, ice breaking sessions on Nov 25, 2024 18:00 to 20:00 hrs and Team building and competitions were arranged on November 27, 2024 18:00 to 20:00 hrs.

A valedictory session was organized on November 29, 2024. The valedictory address was delivered by Dr. Prakash Chauhan, Director, NRSC. The participants received Certificates from Dr. Prakash Chauhan, Director, NRSC. A cultural program was arranged on November 29, 2024 from 18:00 to 20:00 hrs
