

MoU signed between NRSC and Osmania University, Hyderabad

National Remote Sensing Centre (NRSC) and Osmania University (OU) signed a Memorandum of Understanding (MoU) to enhance collaboration in the field of space technology. The five year agreement, formalized on Wednesday, 14th May 2025 aims to strengthen capacity building and skill development to align with the evolving trends and innovations in the space sector.

The MoU was signed by Dr. Prakash Chauhan, Director, NRSC, ISRO and Prof. Kumar Molugaram, Vice-Chancellor, Osmania University and representatives from both the sides participated in the MoU signing function at Osmania University campus, Hyderabad.

The components of the collaboration include joint certification programs, collaborative research initiatives, offer student projects for B.E, M. Tech, Ph.D. students, live interactions with scientists based in Antarctica and the co-development of educational content under NRSC outreach programs.
