

TRANSFORMATION OF PRAYAGRAJ FOR MAHA KUMBH MELA 2025

A SATELLITE PERSPECTIVE

The Maha Kumbh Mela, a massive spiritual gathering held every 12 years in Prayagraj, is one of the largest congregations on Earth. The transformation of the region to accommodate millions of pilgrims and the subsequent restoration of the site offers a unique view of urban planning, logistics, and environmental management. Satellite imagery provides valuable insights into these changes, highlighting the meticulous preparations and their impact on the landscape.
