

NATIONAL REMOTE SENSING CENTRE
Indian Space Research Organisation
NRSC Golden Jubilee Celebration 1974-2024

We are very happy to inform that National Remote Sensing Center is celebrating its 50 years of completion. Meanwhile we have also implemented the new space policy. This enables to develop private space ecosystem in the country and having opportunities in the field using space technology in all fields towards betterment of quality of life. With a wider participation of start-ups and micro & small industries the goals can be achieved.

In this regards NRSC is conducting a **half day Entrepreneur workshop on 29th Jul 2024**. We request your participation in the same. We will be covering the topics of Open data policy, Bhoonidhi platform, Bhuvan and IN-SPACE activities. Then we will have a **panel discussion on "Enabling Geo-spatial economy through Open data Policy."**
