

## **MoU Signing between NRSC, ISRO and Department of Posts on 22<sup>nd</sup> Aug 2024**

### **Venue: Dak Bhawan, New Delhi**

To establish a standardized, geo-coded addressing system in India, the Department of Posts (DoP) has signed a pivotal Memorandum of Understanding (MoU) with the National Remote Sensing Centre (NRSC) of the Indian Space Research Organisation (ISRO) on 22nd August 2024. This MoU was signed just ahead of the maiden National Space Day on 23rd August 2024, this landmark collaboration is a key component of DoP's initiative to standardize addressing in India by integrating NRSC's expertise in satellite data and remote sensing technologies with DoP's extensive infrastructure and services.

The MoU was signed in the presence of Ms. Manju Kumar, Member (Operations) from the Department of Posts, and Dr. Prakash Chauhan, Director of NRSC, ISRO. Through this partnership, the Department of Posts will closely work with the Regional Remote Sensing Centre (RRSC)-North, NRSC, ISRO to develop and refine a standardized, geo-coded addressing system in India, ensuring simplified addressing solutions for the citizen-centric delivery of public and private services.

RRSC-North, will play a critical role in this initiative and the team of RRSC-North will leverage remote sensing and geospatial technologies to support the development of an accurate and efficient addressing system. This collaboration represents a significant step forward in enhancing the infrastructure and service delivery capabilities across India.
