

Launch of Bhuvan-NHP portal

The Secretary, Department of Space & Chairman, ISRO, Dr. K. Sivan launched the Bhuvan-NHP portal developed by National Remote Sensing Centre (NRSC) on 29-June-2021 in the presence of Secretary, Department of Water Resources, River Development and Ganga Rejuvenation (DoWR, RD & GR), Shri. Pankaj Kumar, Dr. Raj Kumar, Director, NRSC and other seniors officials from NRSC, DoWR, RD & GR, NPMU and all the stakeholders.

National Remote Sensing Centre (NRSC), as one of the Implementing Agency under National Hydrology Project (NHP), is engaged with generation of geospatial products & services pertaining to water resources sector, generation of high resolution digital elevation models, development of flood early warning systems, decision support system development for irrigation water management, modelling & dissemination of hydrological products to support water resources management and capacity building to NHP stakeholders. NRSC and Dept. of Water Resources, River Development & Ganga Rejuvenation, Ministry of JalShakthi signed Memorandum of Agreement on 9th Jan 2017 for providing satellite data based geo-spatial products & services. In order to disseminate this among NHP stakeholders, NRSC has developed a web portal on Bhuvan Geoplatform, called Bhuvan-NHP (<https://bhuvan.nrsc.gov.in/nhp/>). This portal is a repository of information on the initiatives undertaken by NRSC under NHP with a facility to download the reports and knowledge products being developed by NRSC. The URL of the portal is <https://bhuvan.nrsc.gov.in/nhp>
